

DISCOVERERS NEED APPLY

NIH JOBS AND TRAINING OPPORTUNITIES

For students, trainees or recent graduates, there are many unique opportunities available at the NIH. Whether you are seeking to start or grow your professional career, our internships and entry-level positions offer valuable work experience that contributes to and supports research designed to enhance the health of the nation and support business operations within the agency. More information about NIH's trainee programs can be found through the [Office of Intramural Training and Education \(OITE\)](#).

The Pathways Program, which operates across the Federal government, is another option for current students (including advanced degree candidates), recent graduates, and Presidential Management Fellows (PMFs). The NIH offers opportunities through the Federal Pathways program, which is designed to give students and recent graduates at every level a dynamic experience. Learn more about the [Pathways opportunities](#) that are available on our website.

No matter your path as a student, trainee, or recent graduate, discover community, rewarding work with profound impacts, and diverse opportunities to advance your career. **Find it all at the NIH.**

BENEFITS NIH EMPLOYEES ENJOY:

- // A family-friendly workplace, that encourages work-life balance.
 - Employees have access to NIH childcare centers and onsite fitness offerings, among other [Wellness@NIH](#) offerings.
- // [Telework](#) and/or flexible work schedules.
- // Educational and professional development opportunities, accessible through our [NIH Training Center](#).

NIH IS AN EQUAL OPPORTUNITY EMPLOYER:

All job selections are based solely on merit. The NIH does not discriminate based on race, color, religion, gender, national origin, political affiliation, marital status, disability, age, sexual orientation, or membership or non-membership in an employee organization.

Find specific eligibility requirements and application instructions when you apply for an open position via [usajobs.gov](#)—visit our [Students and Recent Graduates resources page](#), or our [Scientific Fellowships and Trainees resources page](#) for more information.

STUDENTS, TRAINEES AND RECENT GRADUATES

At the NIH, employees of 27 Institutes and Centers collaborate across different medical and scientific disciplines to support our mission of Turning Discovery into Health. To pursue a career at the NIH, please visit [hr.nih.gov/jobs](#).
